ملح الهيمالايا الوردي

**Himalayan Pink Salt** is a mineral-rich salt harvested from ancient sea salt deposits located deep in the Himalayas. Protected from the ages beneath the craggy mountain peaks and considered by many to be one of the purest salts on earth, this best-selling variety is renowned for its stunning color and inherent mineral content. Himalayan Pink Salt has become one of the most popular artisanal salts on the market for its straightforward, clean salt flavor and extraordinary, naturally-occurring color. From the palest pinks to deep, reddish grains, the gorgeous appearance is the result of trace minerals like iron, magnesium, potassium & calcium that are present in the salt. We ensure that our EZZAH Himalayan Pink Salt is the highest quality & most beautiful available by utilizing our proprietary quality processes, such as our Optically Clean® technology. Available in a variety of grain sizes, this delicious mineral salt is an everyday essential, treasured by consumers for its versatility and adaptability.

**Fine Grain:** Fine grain EZZAH Himalayan Pink Salt is the perfect size for customers looking for a great all-around salt for everyday use. Perfect for everyday cooking and baking, this is the most popular grain size with consumers.
